

PUBLIC NOTICE

City of Macon

You may have noticed some construction activity around our city! We are currently making improvements to Macon's water system. Improvements include installation of new Well 7 building, aerator, raw watermain, watermain along Cole Street and water meters, demolishing existing Well 7 building and aerators. Four contractors will be involved in construction. These improvements are being made so that we can continue to provide high quality water for Macon residents and improve the efficiency of the distribution system. Funding for this project is provided by a low interest loan from the Illinois Environmental Protection Agency's Public Water Supply Loan Program (PWSLP). The PWSLP is funded by both state and federal resources. The \$1,838,571.00 loan has an interest rate of 0.93% to be repaid over 20 years. For more information, please contact Pam Windell at City Hall.
